

CTP

Memorandum

TO : Director of Training

DATE: 6 March 1970

FROM : Chief, Career Training Program

SUBJECT: Weekly Activities Report

1. Members of the Career Training Staff have opened discussions with directorate representatives regarding interim assignments for the January CT class. The talks are necessarily tentative and exploratory since they are going on in the absence of an official statement of the revised Program and its purposes. For the most part, the initial reaction to the prospect of interim assignments across directorate lines has been encouraging, but it is likely that our chances for success in this undertaking will be diminished if the description of the new Program is not given formal dissemination very soon. ✓

2. After a routine visit to [REDACTED] one of the Program Officers reported that the January class, now completing the first week of the Operations Familiarization Course, is an interested group. Some of the OFC instructors spoke of the alertness of the Trainees and of their receptive attitude toward learning about the Clandestine Service. ✓
